# Annex 01 System architecture of ELIAS

After completion of the application procedures (portal B), the following information is published in the database (portal D):

- Information about programme accreditation, the entries are published in each case after an accreditation decision has been taken;
- Information about system accreditation, the entries for system accreditation of HEIs are also published automatically after an accreditation decision has been taken.

In addition to that:

- Information about the entries for internally accredited study programmes are submitted by the system-accredited HEIs (portal C) and published in the database (portal D);
- Information about accredited study programmes according to the "old" law (before 2018) are submitted by the agencies (portal E) and published in the database (portal D).
